

1

Convergence and Learning - Programs held with schools and learning centers to promote inclusion, break barriers, and spread awareness on disability.

2

Home Data - Home visits are made to collect progress reports of the child. Parents hold an important role in removing the barriers for their children.

3

Convergence and Entitlements - A convergence with the Block development office of the Government to improve the accessibility of schemes, rights, and, entitlements for the vulnerable group in the society.

"World Environment Day"
Marvelling Roots in
collaboration with Bethany
Society and Saitsohpen village
council celebrated the World
Environment Day at Saisohpen
Community Hall.

Trees were planted and
awareness of the Refuse,
Reuse, and Reduce concept
was given to the community.
Children with Disabilities
were taught the value of reuse
where they have learn to make
bricks out of used water
bottles.

Awareness and Learning

Kerlinda War, Program
Manager Marvelling
Roots spread an
awareness on Recycle,
Reuse, Reduce and
Refuse. Supported by
painting and drawing by
children and person with
disabilities.

RapLin Vocational Training Center

After considering that there is a need to strengthen the center and also to enhance the skills and potentials of the youth in the region, the board member has decided to start a vocational training center where it shall be a learning sanctuary where children and person with and without disabilities will be taught the art of improving their skills in which they can generate income from it leading to living a decent lifestyle and improving their quality of life. The Board member has come up with the name RapLin which in khasi translation means cumulative assistance.

TAILORING 101

Marvelling roots took the initiative to support youths with and without disability in learning skills through their Training Center "RapLin Vocational Training Center and has started with a tailoring unit. At present four young girls were enrolled for the training. The course was designed in such a way that youth from any educational background or youth with or without disabilities can attend the training..

EARLY IDENTIFICATION
OF CHILDREN WITH
DISABILITY IN VILLAGES
WILL ALWAYS BE OUR
PRIORITY.

In order to provide early intervention to the child and to support the mother throughout the intervention process daily home visits have been done so that the parents can understand their children's disability.

Teaching them the activity of daily living skills and also daily exercise for posture and mobility control for children with Cerebral Palsy.

An annual school intervention as part of the Marvelling Roots program. This quarter it was held at our Program Manager's very own village Sohsarat. The level of participation and excitement was marvelous.

School Awareness

Fun and learn training activities was conducted at Sohsarat Government LP school. The program was on gardening and identifying wild vegetables available in the surrounding, group work, group presentation and peer learning were the activities involve during the session.

In Convergence with

As part of the convergence programs Marvelling Roots in collaboration with the Block Development Officer has pushed the Aadhar registration to the next level where not only for senior citizen were being registered at home but it was done the same for Person with Disabilities too.

Marvelling Roots team along with the Adhar enrolment team went to the house of three adults with a disability to receive the enrolment at home. For many years they have been deprived of various schemes provided by the government due to the unavailability of Adhar.

Adhar enrolment at home, three people with disability have received Adhar.

Building Soil and Community

Marvelling Roots in collaboration with Bethany Society and Government Department have trained Persons with Disabilities on sustainable and Climate resilient Livelihood activities. Due to the lack of fertility of the soil they were trained on how to build the capacity of the soil through various technologies, this way the community was strengthened and they learned accepted, and united in making the soil healthy again for farming and plantation. aside from that they were also being taught about environment-friendly husbandry activities.
